

FAMILY & SCHOOL UNITED AT THE ROOTS

We develop strong partnerships with our students' families and other care providers, which is essential for a successful transition to adulthood.

"It is clear to me that you and your staff are willing to do whatever it takes to help Kevin. Your approach is refreshing and welcomed especially in light of past practices (we) have been exposed to. The IEP/ brainstorming session today, I feel, was both beneficial and promising. I was very impressed by the eagerness of your staff, and of course the sincerity you have all displayed in your dealings with Kevin." - Steve

CEA has over 30 years experience in providing individualized transition services to students by developing long-range plans focusing on goal achievement while improving skills that are necessary for adult life.
